

COMPUTER CRECHE COURSE

Computer Crèche Course has a mobile Computer Tutoring Facility operating in your area now. Our objectives are to teach young children the general principals of computing, focusing on the actual computer, what computers are capable of doing and what they can achieve using computers. Our qualified staff teaches children computer functions using specific packages, which instruct the child in perceptual skills, cognitive development, numbers and the alphabet using enjoyment as major motivating factor.

- Our Mobile Facility will come to your school (no travelling by yourselves or by the school staff)
- Lessons are given in Afrikaans and English
- Duration of lesson - half a hour (1 lesson per week)
- 8 Pupils per class – each child on their own PC
- Age group – 3 years to 7 years

Should you be interested in enrolling your child please contact us for an application form that is to be completed and returned to your child's school or teacher.

If you should have any queries please contact the relevant area representative below!
